The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by FR '547.

FR '547 discloses automobile bumpers and methods for their production (see abstract). The methods include the use of two separate compositions for charging the mold. One is a fiber reinforced drapable material and the other a thermoplastic. The method includes placing both materials into the mold before closing (see abstract, claims 10-13 and figures).

Therefore, the reference anticipates the rejected claims.
